idi Image
Diagnostics
Inc.

Since 1986, IDI has been a manufacturer of innovative products for surgical, interventional and diagnostic imaging. Our product focus is in electro-mechanical solutions for fluoroscopic and digital and radiographic applications. IDI is committed to delivering superior product design, value and customer support in every product we build.

IDI IMAGING TABLES

IDI Cardiovascular Tables

IDI's Aspect line of interventional and endovascular tables deliver extended positioning and imaging capabilities.

IDI Urology Tables

For over 25 years IDI has manufactured the market leading mobile table for Urology.

IDI GI/Pain Management Tables

C-arm tables for GI and pain management procedures. Tables with tilt, roll and longitudinal tabletop movements are available.

IDI VIDEO INTEGRATION SYSTEMS

ilex Video Integration Systems

The first mobile large field 4K UHD display solutions with onboard video integration. The systems are equipped with 55" or 58" surgical or DICOM-ready high resolution UHD monitors. The ilex series visualization products are much more than simply monitors on a mobile stand. ilex includes the complex electronics associated with fixed room integration solutions for scaling, conversion and switching devices and incorporates them into our mobile chassis.

MDS Video Integration System

Advanced Video Integration for multi-modality image visualization in Urology, GI & Vascular surgery.

ilex D

An affordable video integration solution for an office-based lab.
