

MONITOR CART 27R

INTELLIGENT DESIGN ► TANGIBLE OUTCOMES

Mobile recording system

Includes an integrated video recorder capable of video, still capture and playback

- Direct connect to C-arm workstations and cameras
- Digital connectivity with no scaling or conversion required*
- HD recording standard. 4K recording available as an upgrade**

The IDI Monitor Cart 27R provides a cost-effective display and recording solution targeted for Upper GI and the Barium Swallow procedures. The 27R features an integrated video recorder capable of video, still capture and playback. A 27" touch screen monitor provides system navigation and image annotation. The 27R can connect to PACs and network work lists.
